PREFACE

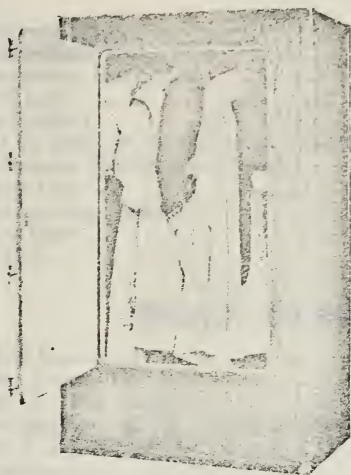

IN presenting this issue of the Cleveland Blue Book and Social Directory, the author and publisher is convinced that the work will prove more complete and useful to its subscribers than any previous issue.

The features that have heretofore made the book valuable have been retained and several additions have been made.

In addition to the names and addresses of prominent families, the names of clubs to which each man of the family belongs, the Alma Mater of each college graduate, and the names of the junior members of the family between twelve and twenty years of age, the leading clubs of Cleveland have been added in this issue because of the great demand made upon the publisher for this information. All this information is given in connection with the alphabetical list of names, street list, and the names of prominent people in 34 towns near Cleveland, giving the volume a new value from the standpoint of ready reference.

The author and publisher tenders her thanks to those who have made the present work possible by their subscriptions and assistance, and expresses the hope that the work will fully meet all requirements.

HELEN DE KAY TOWNSEND.

THE Likly & Rockett Air-Tight Wardrobe is the

most efficient device ever produced to protect clothes and furs. The clothes are hung up, so they will be found in perfect shape for instant use.

The Wardrobe is made Air-Tight, Dust-Proof and Moth-Proof by having the door compress a rubber cushion, which seals the wardrobe perfectly air-tight.

The Wardrobe is a fine piece of furniture. It is made of six panels, beautifully finished in mahogany or oak. It is white enamel lined and furnished complete with hangers.

The Wardrobe will save you time, fur storage, cleaning and pressing. It will pay for itself in a few seasons by saving you a large percentage of these charges.

Size, 30 inch, \$60.00; 36 inch, \$70.00; 42 inch, \$75.00

IN the following Alphabetical List, the names in smaller type immediately below the names of a man and wife or a widow denotes the woman's maiden name. The letters and figures following names denote the clubs, college degrees and year of graduation of the husband. The same principle is followed with regard to other names in the family. The prefix Junior signifies children between the ages of twelve and eighteen for girls and fourteen and twenty for boys.

Many requests have been made of the author to continue a list of former residents of Cleveland. This has been done with the view that it will prove of inestimable value in sending out invitations.

EDITED BY J. H. HARRIS

THE Spencerian

Commercial School

Cuclid Avenue and 18th Street
Cleveland

More than 41,000 students have attended this institution since it was founded in 1848. ¶ The phenomenal success of the Spencerian has been made possible because it stands for excellence in method and perfection of training; because it has the spirit of progressiveness in all its activities; and because of the success of its graduates in all positions of trust and responsibility. This last, above all, is the supreme test of the worth and value of an educational institution. ¶ Business, Shorthand, Civil Service, English, Higher Accounting, Auditing, Advertising, Private Secretary, Teachers' Training and Salesmanship Courses

Last year we received 2,000 calls for
our students from the business
houses of Cleveland and
▼ Vicinity ▼

A catalogue of views and information will be mailed upon request

The Keystone of Our Success

is well trained students who give
complete satisfaction to
their employers

We invite business men to visit our Office Practice and Banking Department and our Actual Business Experience Office, where our students receive instruction and practice in the use of the latest office systems and labor saving devices

Old Shaker Settlement, from North Boulevard

◆ ◆ AND THEN ON THIS ◆ ◆

Same view, with development

and see what a difference three years, reasonable restrictions and well directed, persistent conscientious efforts have made in the beautiful and quaint old SHAKER SETTLEMENT on the high hills southeast of Cleveland.

We Aim to Provide Home Sites for Refined, Cultured People

Who appreciate purer air, larger lots, greater privacy—where one can have his own “vine and fig tree,” where his children can have good schools and spacious play grounds, without the dangers of the streets. All these benefits can be obtained at prices to suit the individual purse.

Shaker Heights the Year Round

Many people who have gone heretofore to the country for the Summer have become tired of moving so often; of staying in town until June and hurrying back in September, on account of school, and have accepted Shaker Heights as their home the year round. It's altitude makes it several degrees cooler in Summer, and frequently in the Winter, that which is rain in town, is Snow on Shaker Heights, showing that the air is drier and more healthful.

If you don't want to buy on Shaker Heights, don't talk to Shaker Heights residents. It's contagious.

Street List

In locating a street number it must be borne in mind that Euclid avenue is the dividing line between north and south on the East Side, while Lorain avenue is the dividing line on the West Side. Ontario avenue marks the city's dividing line east and west.

The numbers on cross streets abutting on St. Clair avenue are, 1300, on Superior avenue, 1500, on Payne, 1700, on Euclid avenue, 2000, on Prospect avenue, 2050, on Carnegie avenue, 2086, on Cedar avenue, 2100, on Central avenue, 2300, on Scovill avenue, 2500, on Woodland avenue, 2600, on Broadway, 3500. On the west side the numbers on Detroit avenue, 1400, on Franklin avenue, 1600, on Lorain avenue, 2000. This will give a key to the numbers on the streets running north and south.

Streets in various well-known sections have been listed under districts, i. e., streets in Wade Park district will be found under the heading of Wade Park District. In Euclid Heights, under that division. The abbreviation E. C., will follow all streets that are in East Cleveland

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be carefully documented to ensure the integrity of the financial data. This includes recording dates, amounts, and the nature of the transactions.

The second part of the document provides a detailed breakdown of the company's revenue for the quarter. It lists each source of income, from sales of finished goods to royalties on intellectual property. Each item is accompanied by a brief description and the corresponding revenue amount.

The third part of the document outlines the company's expenses for the same period. It categorizes costs into fixed and variable expenses, providing a clear picture of the company's operational costs. This section also includes a comparison of actual expenses against budgeted amounts.

The final part of the document summarizes the overall financial performance of the company. It highlights the key factors that contributed to the company's success and identifies areas for improvement. The document concludes with a statement of the company's financial health and a forecast for the future.

Good Coffee

How to Make It

RECIPES

One level tablespoonful ground SENORA Coffee for each person to be served, and one extra for the pot. For six cups add half a beaten egg and shell to the dry coffee; cover with cold water. Let this boil up, then fill the pot to the required amount with boiling water. Put back on range to keep hot, but not boil, until ready to serve.

PERCOLATED

Put in cup one level tablespoonful SENORA Coffee, finely ground for each person. Fill pot with as much water as coffee is desired and let it percolate for 15 or 20 minutes.

Always the same—SENORA is a blend of the best American grown Coffees. *We never change the grade.*
Packed in sealed tins only. Sold by most good grocers.
